

Field Service Engineer – Las Palmas

Job Posting Description

In this role, you have the opportunity to provide highly visible customer support through the performance of on-site installation, as well as overseeing any necessary diagnoses, troubleshooting, service, and repair of complex equipment and systems.

You are responsible for:

- Checks out and approves operational quality of medical equipment.
- Instructs customers in the operation and maintenance of the equipment.
- Serves as company liaison with customer on administrative and technical matters for assigned projects.
- Will have to work with system hardware and software, PCs, and networking/wireless networking, for support, maintenance and repair of medical equipment.
- Identifies key issues and patterns from partial conflicting data and finds solutions based on theoretical insights and experience for deviating situations.

You are a part of the Field Service Engineering team, located in Islas Canarias

To succeed in this role, you should have the following skills and experience

- Living in Islas Canarias (Las Palmas, Tenerife) or surroundings (or with the option of moving voluntarily)
- Graduated from Engineering: Industrial, Mechanical, Biomedical, Electro mechanics or Mechatronics
- Interested to develop professionally as a technical expert and working in the Health sector (will work with doctors and medical staff)
- Fluent English and Spanish. Good communications skills
- Valid driver's license

Why should you join Philips?

Working at Philips is more than a job. It is a calling to create a healthier society through meaningful work, focused on improving 3 billion lives a year by delivering innovative solutions across the health continuum. Our people experience a variety of unexpected moments when their lives and careers come together in meaningful ways.
